

IBM CLOUD SERVICES

The screenshot displays the IBM Cloud dashboard interface. At the top, the browser address bar shows 'cloud.ibm.com'. The dashboard header includes the IBM Cloud logo, a search bar, and navigation links for 'Catalog', 'Manage', and 'Rithick K's Account'. The main content area is titled 'Dashboard' and features a 'For you' section with four recommended actions: 'Build' (Explore IBM Cloud with this selection of easy starter tutorials and services), 'Create an OpenShift cluster' (Deploy apps on highly available clusters with Red Hat OpenShift on IBM Cloud), 'Create a Kubernetes cluster' (Automate deployments and manage your containerized apps in a native Kubernetes experience), and 'Create and deploy an application' (Browse our starter kits, and then select one to jump start the process to create and deploy your app). Each action includes a 'Getting started' button and a duration (20 min, 20 min, 5 min, 2 min). A 'Recommended' button is also present. On the right, a user profile dropdown for 'Rithick K' is open, showing options for 'Profile', 'Log in to CLI and API', 'Privacy', 'Change theme', and 'Log out'. Below the 'For you' section, there are four tiles: 'News' (Unified Key Orchestrator Now Supports Easy Multicloud Key Management for Google KMS), 'Recent support cases', 'Planned maintenance', and 'IBM Cloud status'. Each tile has a 'View all' link. The bottom right corner features a world map and a chat icon.
