

## NODE-RED SERVICE:

## IBM WATSON IoT PLATFORM :

The screenshot displays the IBM Watson IoT Platform dashboard. The browser address bar shows the URL `46drr9.internetofthings.ibmcloud.com/dashboard/devices/browse`. The dashboard header includes the title "IBM Watson IoT Platform" and a user profile for "arvindprakash580@gmail.com" with ID "46drr9".

The main navigation bar contains tabs: "Browse", "Action", "Device Types", and "Interfaces". A sidebar on the left lists various icons for navigation. The "Browse" tab is active, showing a sub-header with "All Devices" and "Diagnose" buttons. A blue "Add Device +" button is located in the top right corner.

A descriptive text states: "This table shows a summary of all devices that have been added. It can be filtered, organized, and searched on using different criteria. To get started, you can add devices by using the Add Device button, or by using API."

Below the text is a search bar labeled "Search by Device ID" and a "Device Simulator" toggle switch. A table lists the devices:

|   | Device ID | Status       | Device Type | Class ID | Date Added          |
|---|-----------|--------------|-------------|----------|---------------------|
| > | 12345     | Disconnected | abcd        | Device   | 4 Nov 2022 2:35 PM  |
| > | abcd_1    | Connected    | abcd        | Device   | 10 Nov 2022 4:54 AM |

At the bottom of the table, it says "Items per page 50 | 1-2 of 2 items". To the right, it indicates "1 of 1 page" with navigation arrows. A status box at the bottom right shows "1 Simulation running".

The Windows taskbar at the bottom includes a search bar, several application icons, and system information: "Links", "31°C", and the date/time "15:09 10-11-2022".
